Alter Steinweg 3  
20459 Hamburg  
Germany

I am a software development manager with proven experience in leading and growing teams. As a people manager I see myself as a capable leader who understands how to motivate the team, how to keep projects on track and measure the right KPIs and OKRs.

I do have a passion for agile software development with a healthy dose of pragmatism. I do emphasize on both building things right and building the right things with the help of focused processes.

## TIME LINE

## WORK EXPERIENCE

### SVP Engineering @ Statista

Hamburg, DE

January 2021 - now

Thinking, architecting and prototyping the next data platform for Statista, Data Lake, Data Pipelines, Polymorphic Document Database Designs for DynamoDB

### CTO @ Statista
